Microphone only

w/ Pop Filter

w/ Pop Filter and Headphones

- **USB Output:** The USB output enables direct integration with a desktop or laptop computer, allowing CD-quality recording
- **Dual Capsule Design:** The dual capsule design incorporates omnidirectional and cardioid elements to give you a choice
- **-10dB Pad:** A -10dB pad switch eliminates noise and distortion when capturing signals at extreme volume levels
- **Accessories Included:** A desktop stand and USB cable are included so you can begin recording right away
